Android Jetpack Compose

```
class MainActivity : AppCompatActivity() {  
    override fun onCreate(savedInstanceState: Bundle?) {  
        super.onCreate(savedInstanceState)  
  
    }  
}
```

Android Jetpack Compose

```
class MainActivity : AppCompatActivity() {  
    override fun onCreate(savedInstanceState: Bundle?) {  
        super.onCreate(savedInstanceState)  
        setContent {  
            ...  
        }  
    }  
}
```

Android Jetpack Compose

```
class MainActivity : AppCompatActivity() {  
    override fun onCreate(savedInstanceState: Bundle?) {  
        super.onCreate(savedInstanceState)  
        setContent {  
            Text("Hola Mundo")  
        }  
    }  
}
```

Android Jetpack Compose

`@Composable`

```
fun Title(text: String) {
```

Android Jetpack Compose

@Composable

```
fun Title(text: String) {  
    Text()  
}
```

Android Jetpack Compose

@Composable

```
fun Title(text: String) {  
    Text(  
        text = text,  
        color = deepBlue,  
        fontSize = 24.sp,  
        textAlign = TextAlign.Center,  
        style = TextStyle(fontWeight = FontWeight.Bold)  
    )  
}
```

Android Jetpack Compose

@Composable

```
fun Title(text: String) {  
    Text(  
        text = text,  
        color = deepBlue,  
        fontSize = 24.sp,  
        textAlign = TextAlign.Center,  
        style = TextStyle(fontWeight = FontWeight.Bold)  
    )  
}
```
