Paging 3

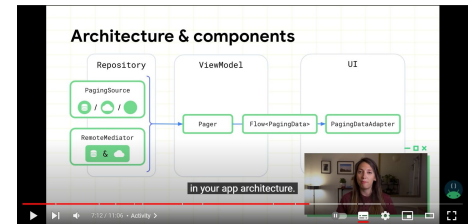

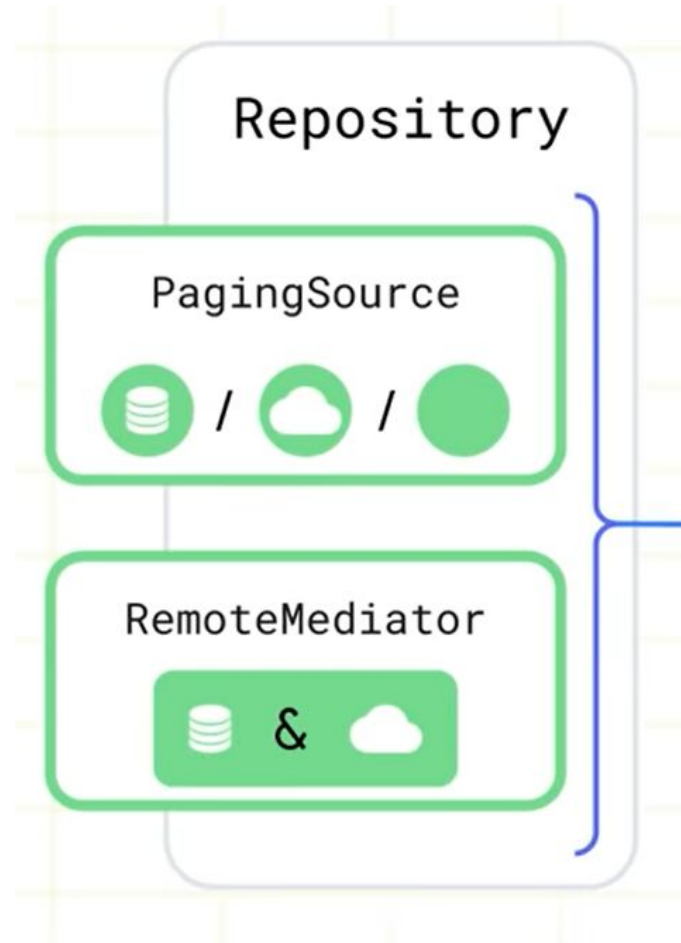

Paging 3

PagingSource

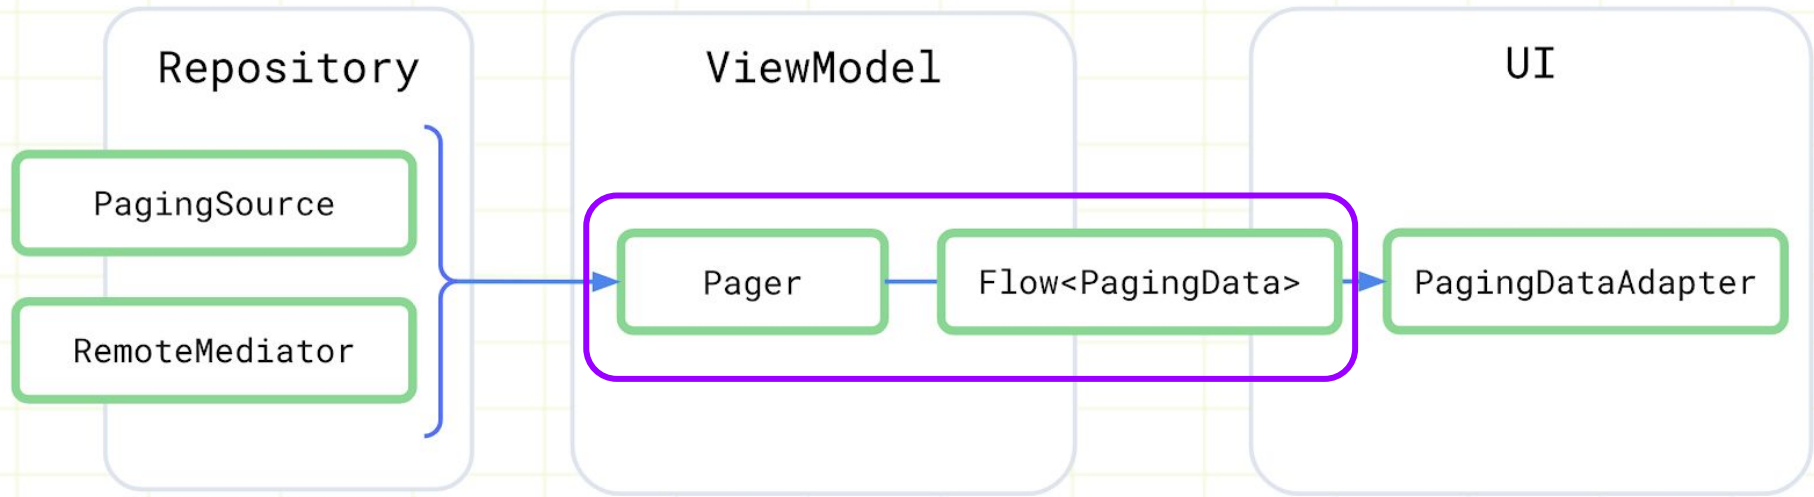

```
class PokemonPagingSource(  
    private val pokemonApiService: PokemonApiService  
) : PagingSource<Int, Pokemon>() {
```

Page

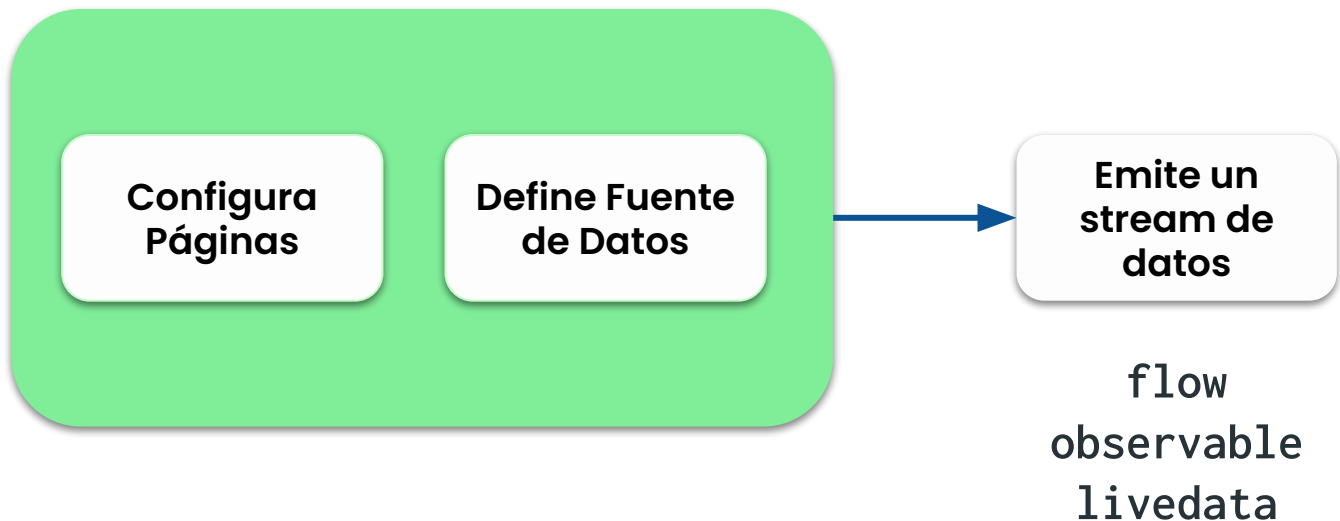

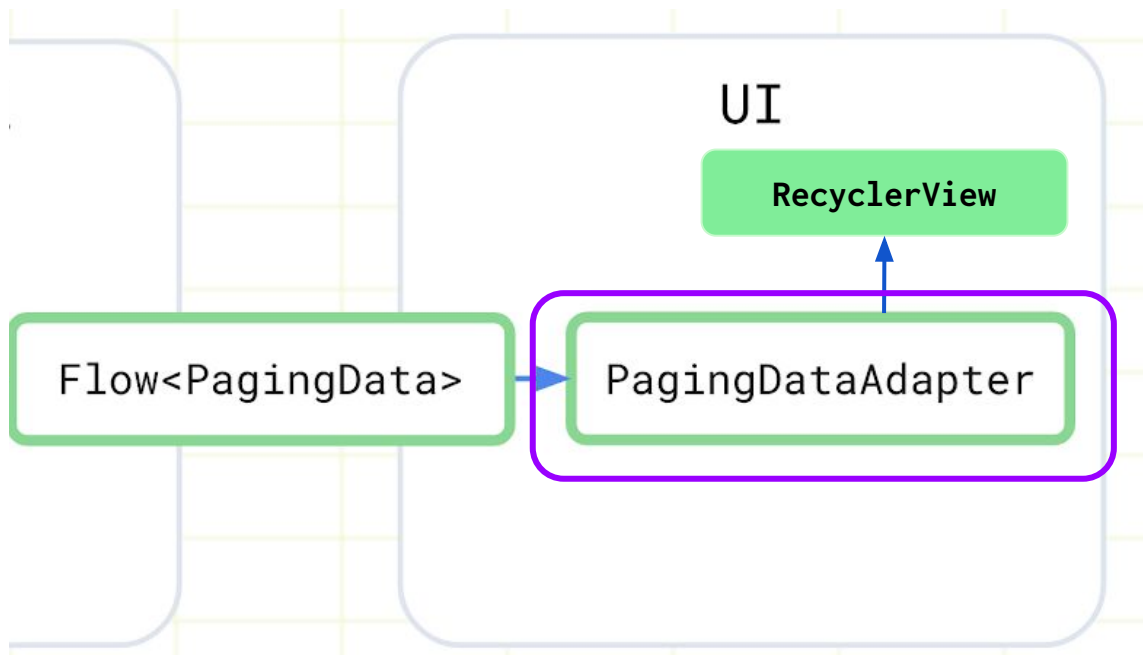

Model

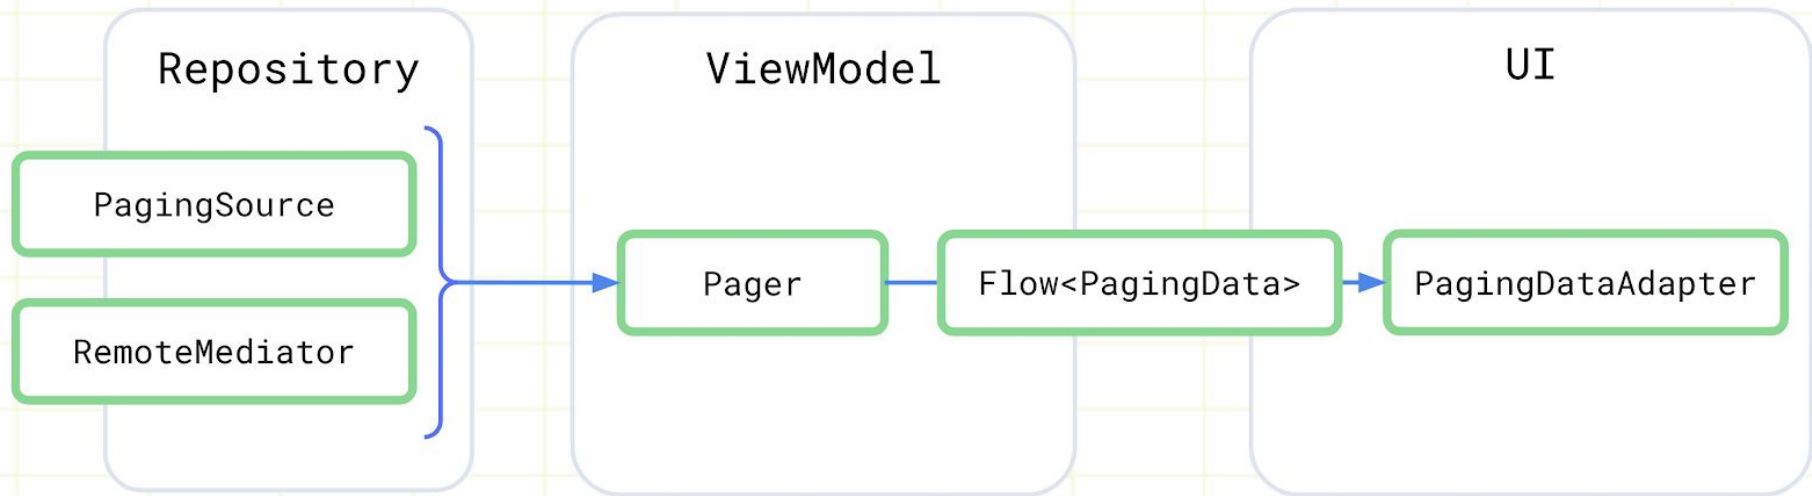

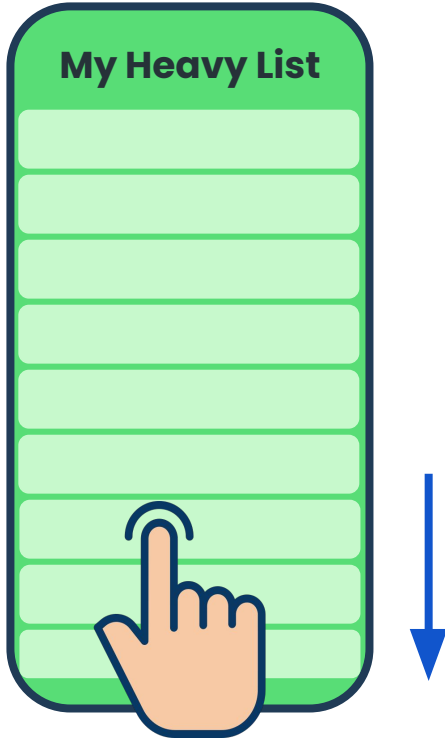

Pager – Configurador

Separators

- Header
- Footer
- Estados de carga

Transformations .map & .filter

```
fun getMovies(): Flow<PagingData<MovieUi>> {  
    return moviesRepository.getMovies()  
        .map { pagingData ->  
            pagingData.map {  
                mapper.mapDomainMovieToUi(domainMovie = it)  
            }  
        }  
        .cachedIn(viewModelScope)  
}
```
